

How I Created A \$1,400 + Per Month Passive Income Stream In Under A Month Using Get Paid To Programs

By: Amy Bass

www.MyDebtFreeGoal.com

I am almost afraid to give out all my secrets, but here it goes...

Thank you for purchasing this report.

I wanted to share with you how I was able to come in to internet marketing as a **full fledged newbie** and create an income stream that paid me \$1,500 my first month \$1,800 my second month and \$1,400 my third month from just one source.

In fact, I didn't join any Get Paid To program until the middle of May so I actually made \$1,500 my first two weeks.

May check for \$1,531.07

June check for \$1,855.84

I haven't received my July earnings check yet or I would have it posted as well.

As you can see the earnings can fluctuate a bit, but the point is after spending two weeks working I have gotten paid **passively** ever since.

I do not do any more active promoting yet I keep getting paid month after month. In fact, I don't even do any surveys.

The secret is in 'Get Paid To' programs. No, I am not asking you to do any surveys or offers. I am talking about where the real magic is... REFERRALS.

Familiarize Yourself With The Get Paid To Market

Do a few surveys just go get familiar with the get paid to market. If you are going to be promoting it and making money from it you should know what it is.

Get-Paid-To programs can be quite lucrative if you know how to work them to get the most money for your time invested.

GPT programs are where you sign up and get paid to do offers and surveys. Most of the time the offers are 100% free, but there are some higher paying ones that require a credit card such as participating in a blockbuster trial or something similar.

When you sign up for a get-paid-to (GPT) program you have many options for surveys and offers you can complete with different payout amounts.

You can do a lot of free \$0.50- \$1.00 offers or participate in some big ones that pay upwards of \$40 or more.

You can make some decent cash by spending several hours a day doing surveys and offers without ever referring a single person to join under you in any program.

However, there is an easier way to put your GPT earnings on **auto-pilot** so you never have to do a single survey again.

How to Maximize your Earning Potential

There are so many hours in a day so there is a limit on how much you can earn per day doing these surveys yourself. This is where the power of referrals comes in. By having referrals you can multiply your earnings exponentially.

This is why my report is going to concentrate more on how to be a GPT program recruiter rather than simply how to complete offers and surveys for yourself.

There are many techniques that you can use to scoop up referrals left and right, but we will be going into that a bit later in the report.

Getting The Referrals

How did I get so many referrals in the two weeks I was recruiting?
Easy... I went to forums where people were looking for ways to **make money online**.

I also went to MyLot and went to the “make extra money” section and would talk about CashCrate and what a great program it was.

I would then include a link to my CashCrate review on my blog.

I was able to get 20-30 referrals a day by using MyLot alone. I also participated in the WAHM forum and was able to get referrals that way as well.

Another great source I used for getting referrals was *Yahoo Answers*. I would answer questions related to making money from home and posted a link to my review in the sources section.

The main program I promoted was [CashCrate](#).

Why did I choose CashCrate?

They have a great bonus. For starters, they pay you up to 30% of all the earnings your 1st level referrals get and 20% of all the earnings of your 2nd level referrals.

Secondly, they are one of the very FEW sites that actually accept international members. Most other get paid to programs only accept people from the United States.

This is not multi-level-marketing. You profit more by your two levels doing surveys and offers than if they just recruited others.

This is because you only get paid for two levels anyway.

Since I joined CashCrate in May I earned \$30 from doing surveys and offers myself. I have made over \$4,800 from my referrals during May, June and July.

Here is my [CashCrate](#) review that I have been using to get my referrals:

----- Start of CashCrate Review -----

[CashCrate](#) is by far the best program I have come across. I have found it very easy to consistently make a good amount of money every single day simply by taking part in surveys and doing free offers.

I set out on a search on the internet to see what people thought of CashCrate. I don't want to waste any of my time on something that wasn't proven to satisfy their members over a long period of time. I was very happy to discover that they are completely legitimate and pay their members very well.

How does it work?

Companies need consumers to try and review products, services, and websites and are willing to pay money to have them do so.

[CashCrate](#) gets paid by these advertisers for our participation and they pass 75% of that money back to us. That is how they are able to stay in business and the earnings stay sustainable.

How You Get Paid

There is a minimum pay out of \$10. I cannot even begin to say how easy it is to reach payout. I made over \$12 in the very first few hours after I signed-up. So the \$10 payout can easily be reached in less than a day's worth of participation.

Payments are processed on the 20th of the following month. So all of my May earnings will be sent to me by check on June 20th.

What do their checks look like?

Here is my proof of payment. This is my [CashCrate](#) check from my May 2007 earnings for \$1,531.07.

You Can Succeed Without Referrals

I want to stress the fact that you can make great money on [CashCrate](#) without ever getting a single referral.

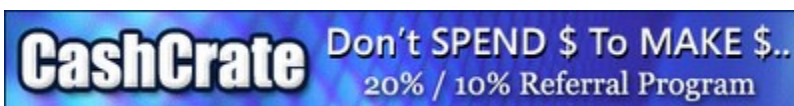

One way to do this is by taking part in the \$0.80 daily survey that is always available once every 24 hours. Even just doing that and nothing else will get you a guaranteed \$24 extra dollars a month.

You can also make an extra \$100-\$200 a month just by doing the free offers and trials available in the "complete offers" section.

I hate programs where you get pressured into signing other people up in order to make money and succeed.

However, if you like to share your success and want others to participate along side of you... CashCrate does have an awesome referral system. In fact, it is one of the best I have ever seen!

CashCrate Referral Program

First of all, with [CashCrate](#) you are paid for two levels of referrals. The first level being the people that directly sign up under you. The second level is people that sign up under the people that you recruited.

So you can get paid for who ever you get to sign up and who ever they get to sign up.

As soon as you join, you start at the bronze level. This allows you to earn 20% of what your 1st level referrals earn and 10% of what your second level referrals earn.

(Don't worry, your referrals not getting paid less. This is extra money that you get paid in addition to what they get paid.)

The rest of the referral program tiers work like this:

Bronze - 0 Active Referrals - 20% First Level, 10% Second Level

Silver - 50 Active Referrals - 25% First Level, 10% Second Level

Gold - 150 Active Referrals - 25% First Level, 15% Second Level

Platinum - 300 Active Referrals - 30% First Level, 15% Second Level

Elite - 500 Active Referrals - 30% First Level, 20% Second Level

You will also get a \$1.00 bonus for every active referral from the United States who completes their first offer.

I compared this referral program to the other GPT (Get Paid To) sites out there and [CashCrate](#) is the highest paying by far.

If you do decide to sign up for CashCrate, I ask that you please use [my link](#). This will help me to reach my financial goal more quickly and get out of debt. It will also allow me to help you each step of the way on your journey to success in using CashCrate.

Who Can Join?

Pretty much anyone can join. Even people from various other countries. Do keep in mind though, that people who are from English speaking countries will have a lot more offers and surveys available to them than those from other countries.

This is because advertisers usually want information and participation from people in the countries they sell their products in.

If you are from a non-english speaking country, there is still hope for you. There have been many successful people from other countries because they make money by getting referrals that live in english speaking countries signed up under them. So there is still a way to make [CashCrate](#) work for you if you are really interested.

----- End of CashCrate Review -----

Plan of Attack

I have consistently found it easier to get referrals for CashCrate than to get someone to buy things. This has been especially effective for stay at home mothers looking for a way to make some extra cash online.

When they don't have to spend money, there is no risk on their end and they are more than willing to sign up and try it out.

Bonuses

The bonuses [CashCrate](#) offers are fantastic. On top of getting between 20% - 30% of all your referrals earnings, you also get a \$3 bonus when they make their first \$10. That is up to 60% on their first \$10 of earnings.

Make a CashCrate Review Page

Create a page with your CashCrate review, or if you purchased my CashCrate PLR package you can use that.

Let people know how easy it is to participate. Let them know how it will benefit them and that it wont cost them a dime.

Get Traffic

You can either use forums to get free traffic like I did, or you can do banner advertising or even PPC. My review converts really well, so if you have the PLR to it you will be getting really a really great ROI.

Additional Programs You Can Promote

Gangster Greed

I would consider [GangsterGreed](#) to be a must have program to promote. They let you cash out via PayPal every single time you hit \$10 in earnings. They also have unlimited referral levels.

Gangster Greed Referral Program

1st Level Referrals- 25% Commission on Earnings

2nd Level Referrals- 6.25% Commission on Earnings

3rd Level Referrals- 1.56% Commission on Earnings

4th Level Referrals- 0.39% Commission on Earnings

5th Level Referrals- 0.09% Commission on Earnings

The way Gangster Greed has their referral program is that you earn 25% of level one. For level two you are paid 25% of 25%, which is 6.25%. For level three you are paid 25% of 6.25%, which is 1.56% and so on.

I really like this referral structure and highly recommend this program. You can sign up for it [here](#).

Gangster Greed Interview

I actually interviewed the owner of [GangsterGreed](#) and after reading it I am sure you will see why I like this program so much:

1. What got you started in the Get Paid To (GPT) Industry?

A friend of mine got me started a few years ago. He sent me a referral link and I was hooked from the get-go. I was already working as a web developer, but I wanted to find some extra cash to fund my reckless gaming habits. GPT was the way to go.

2. Do you think a person could make a living through Get Paid To programs? Why or why not?

It is certainly possible. I know of at least one member who does so, and he is quite successful. It is, however, very rare, in my experience.

3. What made you decide to start Gangster Greed?

As I mentioned earlier, I was a professional web developer before I ever clicked onto a GPT site. Additionally, I had always been interested in at-home work and I really enjoyed working with GPT sites.

I did, however, notice some opportunities for improvement in the GPT programs I was using at the time.

Chief among these was the fact that they all paid on a monthly basis. Some of them also paid by check only. So if you completed an offer on the first of the month, the check wouldn't be sent until the 15th of the following month.

You probably would receive it around the 20th, then you get to deposit it in the bank and wait for it to clear. In some cases, you wouldn't be able to spend the money for a full 60 days after you completed an offer!

This didn't seem optimal to me. This is the information age. Things should work faster than that. I've never had a job that waited 60 days to pay me.

I've never waited 60 days for a pizza, for my laundry, or for my car to be repaired. I suppose in the end I just saw a little aspect that I didn't like about something that, as a whole, I really DID like, and set out to change it.

I think I must have been on to something because our instant cashout system has been a big hit since it launched.

4. What sets Gangster Greed apart from the competition?

We are the fastest paying site on the web, bar none. We also have unlimited referral levels, so your referrals keep on giving.

I don't think it's fair that other sites only give you 1 or 2 referral levels. After all, everyone in your downline eventually joined the site as a result of you. It's only fair that you should get a piece of the action.

Additionally, we have free offers only. There is no credit card required for any offer on our site. There are few, if any sites with as many free offers as Gangster Greed.

5. What Get Paid To advice do you have for beginners who want to make a full time income from GPT?

Referrals, referrals, referrals. Why? Because you'll run out of offers eventually. If you want a passive, unlimited income, referrals are the way to go.

Ultimately, starting your own site may be the best way to make a full time income, because everyone who joins your site is, in effect, your referral.

6. Do you have any changes coming to Gangster Greed? If so, what are they?

We have a number of changes planned, which will serve to increase the earning opportunity of our members dramatically. However, I am not yet prepared to release any details.

Starting your own GPT program

There are a lot of people who are making a lot of money running their own GPT site. You can accomplish this by signing up with [Shift Code](#).

They are a company that can make pre-made GPT sites for really great prices. 99% of the GPT sites use them.

You can start your own GPT for as little as \$169.95 to start and only \$19.95 per month!

This can be very lucrative if you can find a way to stand out from the other programs I have already overviewed.

Great ways to do this would be through the referral program and payout options.

If you ever do start one, let me know. I would love to help you promote it.

I do suggest getting your feet wet by using other programs first before venturing out on your own.

You get paid for people coming to your program ready and willing to participate in every Pay-Per-Lead and Pay-Per-Action offer you set before them.

I asked more Get Paid To owners why they started their own programs and here are their responses:

Me: Why did you decide to start your own GPT program?

Owner of PayCage: I figured if I was making that much from doing the surveys, that I would make A TON more by offering them to others! I also LOVE the fact that I can stay at home with my kids, and still be able to make money!

Owner of [SpareStash](#): I started Spare Stash to stay at home with my now 15 month old son. I didn't want to put him in daycare until he was old enough to talk and let me know if anything bad happened.

Owner of [Deal Barbie Pays](#): I wanted to start a site where members could actually contact me; I didn't want to be another faceless site admin.

Owner of [Rock Hard Cash](#): When I opened Rock Hard Cash, there really weren't that many sites open. I had pretty much exhausted all the offers I wanted to do, but still wanted a way to make money from home. So, I decided I would start my own site, and have now been open a year.

Owner of [Squishy Cash](#): I just got tired of working hard for someone else's benefit. I had some extra time and I had the resources so I decided to invest in my own business.

Owner of [The Cash Café](#): It goes back to me being put out of work because of my injury. I was the main supporter of my family and financially, we were really hurting. My husband had a job but it barely paid for his bills, so since I knew about GPTs, I decided I would take the plunge and try my own. I have a lot of customer service and management experience and I knew I could apply that to running a site. Now my husband has a great job but I don't want to stop running my site. I've met some really wonderful people and I have a lot of fun with it. I'm glad I made the decision to open a site of my own.

Summary

As you can see there is a lot of money to be made in the Get Paid To market. You can either be the middle-man by getting referrals for the high paying Get Paid To programs such as CashCrate or GangsterGreed or you can start your own program and get all the benefits.

To be sure you understand everything, email me at vegangoddess22@gmail.com if you have further questions. I want to make sure you are completely satisfied.
